Judith:

Per my earlier email, here is the full DOH Statement which was apparently issued on Friday (12/18).

Amazingly, this document refers to DOH sampling. It is our understanding that the sampling was actually performed by C T Male either under contract to Saint-Gobain or the Village. But more significantly, the test results show PFOA over 600 PPT in the tap water and yet DOH basically asserts that it does not matter.

This behavior is at best irresponsible and at worst and perhaps more accurately characterized as being criminal. DOH is actually doing Saint-Gobain's bidding at this point.

Thanks for anything you can do about all of this.
